RE: Water Bills

To Town Clerk <clerk@fromberg-mt.com>

Hi Michele-

LIHEAP is a program that can help with your primary heat bill through the winter months- October through April. It can also provide a discount on your electric service if you are a Northwestern Energy customer. The program is based on income and resources, but is a fairly easy application process. The application needs to be filled out and signed by anyone 18 or older in the home. If you have never applied I would need Photo IDs (anyone over 18) and Social Security Cards for everyone in the home. Income for the previous month as well as banking statements and any investments. Lastly your utility bills are needed. If you would like I can mail you the application or email it (you will need to print it) so you can take a look.

Also I am going to reach out to the Red Lodge Community Foundation in regard to water bill assistance and see what they have to say. I will do my best to come up with some potential resources for you.  
Sincerely,

**Kelly Marquardt | Branch Operations Director**
